Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-20, are rejected under 35 U.S.C. § 103 as being unpatentable over U.S. Patent #5,869,826 to Eleftheriou ("Eleftheriou" hereinafter). Eleftheriou discloses that a card can be used for conducting coinless transactions including telephone and laundry services. See column 1, lines 11-26 and column 5, lines 15-38. Eleftheriou does not actually teach providing these services to a customer. It would have been obvious to a person having ordinary skill in the art at the time the invention was made to provide pay telephone and laundry services to a customer using a card as generally suggested by Eleftheriou because the card allows coinless transactions and providing multiple services would tend to increase profit of the provider.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U. S. Patent Publication #2003/0195842 and U.S. Patent #6,273,339 are cited for showing cards can be used for both laundry and telephone services.
